Aayush Acharya

has successfully completed the online, non-credit Specialization

MD-102: Endpoint Administrator

Congratulations on completing the MD-102: Endpoint Administrator course! Through hands-on labs and in-depth lessons, you have mastered the deployment and management of Windows client operating systems. You've gained expertise in leveraging Microsoft Intune for lifecycle management, implementing security and compliance policies, and troubleshooting device issues using advanced tools. This achievement reflects your commitment to advancing in endpoint administration and securing enterprise environments.
