**Aayush Acharya**

has successfully completed the online Professional Certificate

# IBM and ISC2 Cybersecurity Specialist

Holders of this Professional Certificate have showcased their mastery in Cybersecurity to the level required for an entry-level cybersecurity specialist. The program prepared learners for an entry-level role by covering topics including IT fundamentals, cybersecurity essentials, security principles, incidence response practices including business continuity and disaster recovery, access control concepts, network security, and security operations. The certificate holder has also developed practical experience with Cybersecurity using hands-on exercises and projects. Additionally, the holder is well prepared to complete the Certified in Cybersecurity (CC certification from ISC2).

# Microsoft Cloud Support Associate

Now that you have completed the Microsoft Cloud Support Associate Professional Certificate, you stand out with a unique set of skills and knowledge in the dynamic field of information technology and cloud computing. This certificate demonstrates your job readiness and can be shared with your professional network. Throughout this program, you've engaged with instructional videos, assessments, and practical exercises, gaining a deep understanding of key aspects, including:

- Proficiency in system analysis and Azure solutions.
- Skills in Microsoft 365 configuration.
- Establishment of robust Azure security protocols.
- Expertise in diagnostics, troubleshooting, and resource management.
- Knowledge in compliance, governance, and cloud support.
